NAMING THE MARINERS

The nickname "Mariners" was selected by the ownership of the Seattle franchise after a "Name the Team Contest" that resulted in over 15,000 entries and over 600 different names being submitted.

When the name "Mariners" was chosen, all the entries suggesting the name were reviewed for their reasons (in 25 words or less).

The winner was Roger Szmodis of Bellevue, Wash. His entry read, "I've selected Mariners because of the natural association between the sea and Seattle and her people, who have been challenged and rewarded by it."

GROUND RULES

PHOTOGRAPHERS' AREA

The ball is "in play" if it hits the retaining fence and bounces back into the playing field.

HITTING ROOF OR SPEAKERS

Batted ball hitting roof or speakers in *Fair Territory* shall be judged fair or foul in relation to where it lands or is touched by a fielder. If caught by a fielder, the batter is out and base runners advance at their own risk.

Batted ball hitting roof or speakers in *Foul Territory* is a foul ball, regardless of where it lands or is caught. If the ball is caught by a fielder, the batter is out and base runners advance at their own risk.

Batted ball sticking in speaker in foul territory shall be called a strike. Batted ball sticking in speaker in fair territory shall be called "no play"

OUTFIELD AREA

Fairly batted ball clearing the wall is a home run. Fairly batted ball bouncing over the wall is a ground rule double.

DUGOUTS

A ball shall be considered "thrown into the dugout" only if it hits an object or person within the dugout. A thrown ball hitting the lip at the base of the dugout or the frame around the dugout and bouncing back into the playing field shall be "in play".

SPEAKER NOTES

The outfield speakers in left, left center and center fields were raised prior to the 1981 season from 100 ft. to 132 ft. above the playing surface. From 1977 through 1980, a total of 7 batted balls hit speakers in fair territory. The first was by Boston's **Butch Hobson** on April 25, 1979; the last was in back-to-back games by New York's **Bob Watson** Aug. 19-20, 1980. All 7 times the ball fell safely for a base hit.

Batted balls have hit speakers in foul territory many times. In addition, the special basketball speakers above first base and the basketball scoreboard behind the plate have been hit . . . On Aug. 4, 1979, Mariner outfielder **Ruppert Jones** popped a foul that stuck in the speaker above the first base dugout; it was ruled a strike.

In 1983, the foul territory speakers and basketball scoreboard came into play 10 times . . . 6 of the 10 occasions resulted in balls being caught and the batter being called out . . . On May 20 vs. Milwaukee, 3 balls were affected, including **Ricky Nelson's** pop fly that stuck in the speaker above the first base dugout (ruled a strike).

SUSPENDED GAME RULE: A game terminated for any of the following reasons will be a suspended game **IF** it has progressed far enough to be an official game (i.e., 4½ or 5 innings): (1) a curfew imposed by law, (2) a pre-arranged time limit, and (3) darkness where local law prohibits turning on the lights.

A game terminated by light failure or malfunction of a mechanical device under the control of the home club will be a suspended game AT ANY TIME AFTER IT STARTS.

Beginning in 1980, if WEATHER forces the termination of a legal game while an INNING IS IN PROGRESS, it will become a suspended game if either of the following two conditions exists:

(1) The visiting team has scored one or more runs to tie the game and the home team has not scored, or

(2) the visiting team has scored one or more runs to take the lead and the home team has not tied the score or taken the lead.

If a legal game is tied when called because of weather and neither situation listed above prevails, it is a tie game and must be re-played in its entirety.

Suspended games shall be resumed at the exact point of suspension immediately preceding the next scheduled single game between the two clubs on the same ground. If this is not possible, other provisions for resumption are specified in A.L. Regulation 3.8.

A game called at the END of a completed inning AFTER NINE INNINGS for any reason shall be a suspended game. Prior to 1969, the game would have been declared a tie and re-played in its entirety at a later date.

HOW TO FIGURE

Batting Average — divide the total number of hits collected by a player by the total number of at bats. Example: Player A is 12-for-40 or .300.

Slugging Percentage — divide the number of total bases by the total number of at bats. Example: Player A's 12 hits include six singles (6), one doubles (2), two triples (6) and three home runs (12) for 26 total bases in 40 at bats and a .650 slugging percentage.

Earned Run Average — the total number of earned runs allowed by a pitcher is divided by the total number of innings pitched and then multiplied by nine for his per-game average. Example: Pitcher B has allowed 12 earned runs in 45 innings of work for a 2.40 ERA.

Fielding Average — the sum of putouts and assists is divided by the sum of putouts, assists and errors. Example: Player C has made 16 putouts and 24 assists and two errors. That's 40 putouts and assists divided by 42 chances for a fielding average of .952.

Won-Loss Percentage — divide the number of victories by the total number of games played. Example: 22 wins and 18 losses produce a winning percentage of .550.

Magic Number — determine the number of games yet to be played by the division leader, add one, then subtract the number of games ahead in the loss column of the standings from the closest opponent.

ITEMS OF INTEREST

AMERICAN LEAGUE CURFEW RULE—All night games must be called at 1 a.m. local time. But if an inning is started prior to 1 a.m. city time, it can be completed.

BATTING/PITCHING (ERA) CHAMPION QUALIFICATIONS—502 or more plate appearances, 162 or more innings.

DEFINITION OF NIGHT GAME—Any game scheduled to start after 6 p.m. will be considered a night game. If a game is scheduled to start at 6 p.m. and is delayed for any reason, it will be considered a day game. If a game is scheduled to start at 6:01 p.m., it will be considered a night game. Twi-night double-headers shall be included in double-header statistics and shall be considered two night games. When afternoon and night games (separate admissions) are played on the same date, the games shall be day and night and count as single games.

DESIGNATED HITTER RULE—A hitter may be designated to bat for the pitcher in any spot in the batting order in any game without affecting the status of the pitcher. The designated hitter must be selected and be included on the lineup cards presented to the umpire-in-chief prior to the game. Failure to do so precludes the use of a designated hitter for that game. The designated hitter is "locked" into the batting order but may be removed for a pinch-hitter or pinch-runner, who in turn becomes the designated hitter. The designated hitter, while still in the game, may be used defensively but the pitcher then assumes the batting order of the replaced defensive player, thus terminating the designated hitter role. The designated hitter is eligible for all American League batting titles. The designated hitter named in the starting lineup must come to bat at least one time, unless the opposing club changes pitchers.

FREE AGENT DRAFT RULE—A BRIEF SUMMARY: Major League and National Association clubs meet twice a year for the purpose of drafting free agent player talent. . . The winter meeting is conducted by conference phone. . . Selection of a free agent entitles the club to the exclusive right of negotiation with that player for a specified period (from date of selection until 15 days prior to next draft meeting).

There are two phases to each draft meeting:

(1) Regular Phase—Clubs choose in inverse order of major league standings, selecting free agents and previous draftees who had not signed contracts but had instead enrolled in four-year colleges and since had either completed his junior year or become 21 years of age. . . Each organization may select only one player for each of its major league, AAA and AA rosters but is not limited to the number of picks for "A" level. . . Minor league clubs select in the same relative order as their parent clubs.

(2) Secondary Phase—Selection of free agents who had been drafted previously but who had not signed contracts before the negotiation right expired (except those draftees who had enrolled in a four-year college and had since graduated or become 21 years of age—now drafted in Regular Phase). . . It is possible for a club to redraft a player whom it had been unable to sign after the original selection, but only with the express written consent of that player. . . The order of selection is by lot with the 26 major league clubs divided into two 13 team groups with the groups alternating having first selections in respective drafts.

GAME-WINNING RBI — The game-winning RBI became an official baseball statistic in 1980. It is determined by the "run batted in that gives a team a lead that it never relinquished."

INTERLEAGUE TRADING PERIODS—From 12:01 A.M. on fifth day after completion of world series thru midnight preceding the last scheduled day of the winter meetings, and from 12:01 A.M., Feb. 15 thru midnight, April 1.

MAJOR LEAGUE SERVICE—Baseball measures service in years and days (years + days). 172 days on the active roster during the regular season constitutes a full year.

MAJOR LEAGUE TRADING REGULATIONS—A.L. waivers *are not necessary* to assign a player contract from one club to another within the league *from midnight on the last day of the season thru midnight, June 15 (Pacific time).*

A.L. waivers are necessary to assign a player contract from one club to another within the league *from 12:01 A.M., June 16 thru midnight, the last day of the season (Pacific time).*

A.L. waivers are necessary before a player contract may be assigned from the American League to the National League except during inter-league trading periods. Both A.L. and N.L. waivers are necessary *between 12:01 A.M., June 16 and midnight, the last day of the season.*

PLAYER LIMITS—25 players from opening day through August 31. . . 40 players from September 1 through end of season. . . Players in military service do not count against the under control list while on active duty. Upon separation from the service, a player will be reinstated to his club's normal player limits after he has completed a 15-day trial period or has participated in a championship game, whichever comes first.

ROOKIE QUALIFICATIONS—A player shall be considered a rookie unless, during a previous season or seasons, he has (a) exceeded 130 at bats or 50 innings pitched in the major leagues; or (b) accumulated more than 45 days on the active roster of a major league club or clubs during the period of the 25-player limit (excluding time in military service).

SAVE RULE—A relief pitcher shall be credited with a save when he meets all three of the following conditions: 1.) he is the finishing pitcher in a game won by his club; 2.) he is not the winning pitcher; and 3.) he qualifies under one of the following conditions; a.) he enters the game with a lead of no more than three runs and pitches for at least one inning, or b.) he enters the game with the potential tying run either on base, at bat, or on deck (i.e., the potential tying run is either already on base or is one of the first two batsmen he faces), or c.) he pitched effectively for at least three innings.
